TIRE REPAIR PATCH UPGRADE

▸▸ Improved Adhesion For Tire Patching

TECHNOLOGY UPGRADE | **EXTENDED DURABILITY** | **HIGH FLEXIBILITY**

1. 【New Pressing Technology】 The most **exclusive ingredients** and **new pressing technology**, the patch is pressed more tightly, **improving its flexibility and durability**, and making it more compliant with the tire.
2. 【Extended shelf life】 The patch is pressed more closely with the upper and lower PET films and is in a **vacuum state without bubbles**, which further extends the storage time and life of the patch.
3. 【Materials】 The patches are made from 100% natural rubber, offering excellent wear resistance and durability. They are highly flexible, can bend freely, and easily conform to the curved surfaces of tires. These patches are ideal for repairing punctures in motorcycles, cars, trucks, ATVs, and other inflatable rubber products.
   *Note: This patch needs to be used with rubber cement/glue, patch is non-sticky.
4. 【New FSC carton packaging】 New packaging featuring **FSC (Forest Stewardship Council) certified paper** as packaging material, showing support for sustainable forestry practices and helping to promote earth protection and sustainable development.

ITEM NO.	DIMENSION	PACKAGING
P1900	45 x 45 mm	20 pcs
P1901	55 x 55 mm	20 pcs
P1902	75 x 75 mm	10 pcs
P1903	100 x 100 mm	10 pcs
P1907	75 x 50 mm	10 pcs
P1908	100 x 75 mm	10 pcs
P1909	125 x 60 mm	10 pcs

NEW PRESSING TECHNOLOGY

Our patches utilize **advanced vacuum compression technology** to eliminate bubbles, reducing the risk of **oxidation and deterioration** while extending the patch's lifespan. They also provide **excellent flexibility** to better accommodate tire shapes and deformation.
